PREFATORY NOTE

VOLUME VII. of the English Catalogue of Books comprises the titles (in duplicate, viz. under *author* and *subject*) of works published between 1st January, 1901, and 31st December, 1905, thus including nearly 100,000 entries.

Titles and index are in one alphabet. The main entry of each work begins with the author's surname (if given on the title page) in **heavy type.** As an index to these 'Author' records, the title, commencing with its most important word (which usually indicates the *classification* to which the work belongs) or with its first word, is repeated in the same alphabet, with that word in *italics*, which in the main entry is in **thick type.**

The 'Transactions' of Learned Societies are recorded in an Appendix, as also the 'Series' and 'Libraries' issued by some publishers.

The names and addresses of the publishers of Great Britain and Ireland will be found at the end of the volume, followed by those of some of the principal publishers in the United States and in Canada. The telegraph and cable addresses and telephone numbers have been added when known.

Hearty thanks are due to many publishers, secretaries, authors, and bibliographers who have assisted in making this work more correct and comprehensive than it otherwise would have been.

The Editor will be glad to have particulars of author, price, publisher, and date of publication of any work which may have been omitted. Information as to each book should be given on a *separate* slip of paper or post card. It should be addressed to
